e-Scoresheet

To compile the official scoresheet

e-Scoresheet guides you to compile the match scoresheet in real time, through automatism, in order to limit to the maximum the intervention of the operator, by checking all situations and unforeseen circumstances that may occur during a match.

e-Scoresheet is:

Reliable - Because it ensures a complete control of information, avoiding any mistake of the scorer.

Official - Used by many Federations worldwide, it is becoming the universal language for the compilation of the scoresheet, as the only official electronic document in the sport events.

Innovative - Because it can be connected to the organization's site, in order to automatically update the information on the central database.

- The official match scoresheet:

Starting from 2012/2013 season, it's the only official document that determines the validity of the game for all competitions in European CEV and FIVB. Nowadays many other Federation worldwide are using e-Scoresheet and many more are using it and the paper scoresheet at the same time.

- **Before the match:** Add all the information needed in order to allow the regular holding of the match, as match info, rosters control, players input and line-up.

- **During the match:** Use e-Scoresheet as a real official scoresheet. Assign points, records, timeouts and substitutions. Check the number of foreign players on the court, notes exceptional substitutions, the Libero, sanctions and injuries...

- **Revision and officialization of the scoresheet:** At the end of the

match the operator corrects eventual errors, officialize the match through his password and the ones given to the captains. Then he prints the scoresheet.

- **Live Score:** e-Scoresheet can be connected to the organization website in order to automatically update the score, and the database.

- **Interaction with database:** the software is fully integrated with Web Competition Manager, an interface specifically created for Federations and Leagues to interact with the main database.

- **Integration with other softwares:** e-Scoresheet is fully integrated with Data Project programs. It can be connected to Volley Board and LiteScore for the official score, which is automatically updated on the devices; it communicates with Data Video Essential for the synchronization of the videos, creating

a time-line to link to the video of the match. if comunica con Data Video Essential per quanto riguarda le sintesi video, creando una time-line da poter associare al video della partita; if connected with Data Volley, it's useful to read the lineups.

VIDEOCHECK

High speed multicamera video recording system

CLICK&SCOUT

The new frontier in the scouting world for tablet, Android, iOS; Windows and Mac OS
